

WASTE-KING

Heavy Duty Fork & Grab

Waste-King Forks and Grabs have been designed for the Waste and Recycling industries.

Waste-King features a high strength design using Hardox® high tensile steel for a long operating

- Hardox® tines and Grab
- Welded fork tines
- Split Grab for uneven loading — optional
- Hydraulic rams with bushed pivots
- Armoured hoses
- Wearstrip under fork base
- Grab pivots bushed with self-lubricating bushes
- Hydraulic rams guarded front and rear

Waste-King is suitable for handling green waste, paper, cardboard and plastics, tyres and other materials. Customisation is available to meet specific waste handling requirements.

| Model | Capacity | Width | Weight |
|----------|------------------------------|--------------|---------|
| WB510HXG | 110 cu ft/3.10m ³ | 9'0" (2.74m) | 1405 Kg |
| WB505HXG | 97 cu ft/2.75m ³ | 8'0" (2.44m) | 1325 Kg |
| WB500HXG | 92 cu ft/2.60m ³ | 7'6" (2.30m) | 1255 Kg |
